

Fall camp at Dickson Taekwondo proved to be an exciting two weeks during the Dickson School's fall break. Many young students attended the camp and worked hard on martial art, preparing for the October testing. Along with hard work the children were able to have great fun on the field trips planned by Tony Lewis (owner/chief instructor). One field trip was to The Home Place located at the Land between the Lakes. This trip pictured was a very educational event where the children learned about life in the 1850's. The children participated in the games of the time and learned many interesting facts. The camp was a huge success as well as the Testing that follow the conclusion of the break. Tony Lewis was proud of the children's hard work and the camp as a whole.
